DETAILED ACTION

1. This in responsive to amendment filed on 17 March 2005.
2. Claims 8, 19, and 30 have been cancelled.
3. Claims 1 – 7, 9 – 18, 20 – 29, and 31 – 33 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Frank J. Campigotto [reg.# 48,130] on 24 March 2005.

The application has been amended as follows:

4. In the claim 20, line 1, after the word claim replace "19" with ---12---.
5. In the claim 31, line 1, after the word claim replace "30" with ---23---.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguishes over the prior art for following reasons.

The independent claims 1,12,and 23 are allowable over the prior art of record because none of the references either alone or in combination, discloses or renders obvious an apparatus and method of recording and playback operation as claimed in invention with recording an index database information parameters selected from a title

of the optical disk, a title of a track of the data written to the hard disk or combinations thereof; comparing the information parameters of the data with previously recorded information parameters in index, determining whether the optical disk or the track has previously been written to the hard disk, playing the data from the hard disk without re-reading the optical disk if the data has been previously written to the hard disk and turning off the optical disk player, storing the data on a hard disk as the data is being read if the data was not previously stored on the hard disk, outputting the data at the known playback rate while the data is being stored, turning off the optical disk player as soon as the data has been read and stored; and then continuing to provide data to output at the known play back rate by retrieving the data stored on the hard disk.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
